

Treating children equally – whatever their diet

Eden Foodservice strives to cater for all pupils with allergies or intolerances, as well as other special dietary requirements, so they are able to enjoy suitable school meals. If a child has an allergy or intolerance, or requires a texture modified diet, the parent/guardian is able to request an '*Allergies, Intolerance and Texture Modified Diet Referral Form*' from their school office. This form must be supported by appropriate medical referral from a regulated healthcare professional and returned to Eden's Nutrition Department. For safety, a pupil will not be provided with a school meal until the parent/guardian and the school kitchen have received the relevant information from the Nutrition Department.

Please note: Eden do not require a form for religious/ cultural preferences, these can be catered for by the school; please speak to the Catering Manager. Please also note that our Allergies and Intolerances process does not cater for likes and dislikes.
